## WIRELESS OF CARPATHIA REMAINS SILENT TODAY

Rescue Ship Making Slowly Toward  
New York and Will Reach There at  
1 O'clock Friday Morning

ALL WIRELESS QUERIES REMAIN UNANSWERED

Thought That Survivors Have Not Been Made  
Acquainted With Tragedy Which Occurred on  
Titanic After She Was Abandoned—Prepar-  
ations Made by New York Society Women  
to Care for Steerage Passengers.

New York, April 17.—The Cunard liner, Carpathia, bearing the survivors of the sunken steamship Titanic was making slowly toward New York this afternoon groping through the fog. Her wireless is as silent as that of the stricken vessel, a small part of whose cargo she bears. According to the best reports she will not reach here before 1 o'clock tomorrow morning. Wireless messages bombarded the Carpathia all last night and this morning with but little result. Even a message from President Taft asking for news of his aide, Major Butt, remained unanswered and the indications are that no details of the disaster will be known until the Carpathia reaches port. Judging from the nature of the few messages received from the survivors aboard the Carpathia it is inferred that the most of them are ignorant of the awful tragedy which took place aboard the Titanic after she was abandoned.

Thus many wives are ignorant that their husbands have perished, hoping that they were picked up by some passing liner and looking forward to being reunited.

In New York all preparations are being made to receive the survivors. Food, clothing and other necessities have been provided. Police protection will be made and every measure taken to protect the unfortunates who have undergone such a dreadful strain. For the women of the steerage a club of prominent New York women has been formed to house and take care of them until relatives abroad can be informed of their plight.

Washington, D. C., April 18.—An unconfirmed report reached the White House early today that the White Star Steamer Baltic had picked up 250 passengers from the Titanic.

London, April 18.—The actual number of passengers and crew on board the Titanic at the time of the disaster was 2,208 according to Sydney Buxton, president of the Board of Trade.

### REPORT 100 BODIES RECOVERED.

Wellfleet, Mass., April 18.—A wireless message picked up here today stated that 100 bodies had been recovered near where the Titanic sank.

The message is supposed to have come from the Carpathia, but did not state whether the bodies were on that vessel.

New York, April 18.—The Cunard Carpathia with 868 survivors of the wrecked Titanic is due at her dock at 11 o'clock tonight. The rescue ship was off Nantucket light ship 196 miles away, at 5.55 this morning. The wireless report that only 705 survivors of the Titanic are on board the Carpathia still persists but no word has been received from the Carpathia within the last 24 hours giving the exact number of those aboard. It is probable that the number of those who perished will total 1,312. The Carpathia is now said to be in good working wireless zone for numbers of private messages from survivors and instructions to the line were constantly being received during the morning. But no word came to the repeated requests for details.

The Carpathia has sent ashore the names of 125 third class passengers and has requested the White Star line to send a ship with officers and 14 sailors on two tugs to take charge of the thirteen Titanic life boats at the quarantine. This indicates that only 13 life boats had been found

Line officials this morning. Nor is there any mention made of his son, Harry E. Widener, in the wireless dispatches. Special arrangements have been made to care for the survivors when the Carpathia docks. Customs regulations have been suspended and there will be only a short inspection at quarantine by health department officials as is mandatory under the law. Police reserves will be stationed about the Cunard lines here while only friends and relatives of the survivors with the proper credentials will be the only persons permitted on the pier.

The White Star line posted a bulletin that the Carpathia was off Nantucket at 6 o'clock this morning and was due at 9 o'clock which would bring her to dock at about 11 p. m. unless a heavy mist and fog furthered delay.

New York, April 18.—Vice President Franklin of the White Star Line said: "We are not getting a thing by wireless today from the Carpathia. While we have heard from her several times the slightest detail of the Titanic sinking or anything pertaining to the disaster in any way in wireless message we have received."

"Have you heard from Mr. Ismay?" was asked.

"Yes," replied Franklin. "I have received several messages from Mr. Ismay, the last coming in last night during the night. Mr. Ismay is stunned beyond expression. He is simply overwhelmed."

Mr. Franklin declined however to make public the messages from Ismay. When he was asked if it was true Mr. Ismay was transferred from the Carpathia to the Cedric Mr. Franklin said: "I am confident that no attempt to transfer him will be made."

London, April 18.—Mr. Buxton, who was plying with questions, stated that the Titanic had actually 16 boats on board, giving accommodations for 990 persons and there were other boats providing accommodations for 188, making a total of 1,178. In addition there were 48 life buoys and 3560 life belts. The actual number of passengers and crew on board was 2,208. Mr. Buxton said:

"I want the house to clearly understand that up to the present it has never been suggested by a responsible expert that every vessel, however large, or however small, well equipped with water tight compartments should necessarily carry life boats adequate to accommodate all on board. The present disaster has created a new situation which need must be most carefully considered in the light of the Titanic disaster and as protection for the future."

Washington, April 18.—After a conference at the White House today between Mr. Nagle, the secretary of Commerce and Labor, C. D. Hille, secretary to President Taft, and Miss Mabel Boardman, acting head of the American Red Cross society, it was announced that an appeal to the people of the United States would probably be sent broadcast today by the Red Cross society for funds to aid the destitute survivors of the sunken Titanic.

New York, April 18.—The Dutch oil tank steamer La Fradre, which came in today from Antwerp, reports an encounter with a field of ice on April 11 at 9 o'clock in the evening in latitude 42 degrees and 2 minutes, and longitude 50 degrees and 7 min. If the Titanic sank in water which registered but 30 degrees, those who may have perished would not have survived more than a few moments.

London, April 18.—The widow of Captain Smith, the commander of the Titanic, has written a pathetic message which was posted today outside the White Star line office. It read: "To My Brother Fellow Sufferers: My heart is overwhelmed with grief for you all and it is laden with sorrow that you are weighed down by this terrible disaster which has been thrust upon you. May God be with us and comfort us all Yours in deep sympathy, Eleanor Smith."

New York, April 18.—The steamer Carpathia, bearing to New York the survivors of the Titanic disaster, is making good speed toward this port and at the present rate will dock here

tonight between 9 o'clock and midnight.

This information was received from the scout cruiser Salom. That vessel reported that she had been in communication with the scout cruiser Chester and that vessel received the message from the Carpathia.

The wireless communication was broken off after the Carpathia had stated her progress.

The Salom asked the Chester not to attempt to take the names of the third-class passengers saved, as a gale was raging, and there were more important matters waiting to be transmitted.

All doubt as to the wreck of the Titanic with an appalling loss of life was removed by wireless messages from the Carpathia to the station at Wellfleet, Mass., where the first details of the catastrophe were obtained. A scene of indescribable panic prevailed when the giant Titanic struck the iceberg Sunday night, the flash of state.

She was almost rent asunder by the terrific impact with the iceberg. She went to the bottom with almost the entire crew and nearly all of the male passengers.

Captain Smith was the first officer who realized the peril, but he did not believe that his boat, which he expected to pilot to glory on this, her maiden trip, was in danger of going down. As a precautionary measure, however, he instructed the wireless operator to send out the S. O. S. call, the international signal of distress on the sea, so that aid would be on hand if it came to the worst.

This was before the power failed, and the terrifying signal was sent in to the night asking for assistance. The operator had barely clicked his instrument for the final letter of his message when the water flooded the dynamo room.

He turned to his accumulator set, which was weak, and spluttering messages were sent out, but they were incapable of carrying a greater distance than a hundred miles.

The first S. O. S. call was picked up by the Carpathia, which headed at once for the scene of the disaster. The Titanic had gone down before she reached the spot, but numerous pieces of wreckage told the story of what had happened.

A number of bodies were seen floating about in the ice field. They were evidently those who had sought refuge on the floating cakes of ice or in clinging to the pieces of wreckage. The cold overcame them, and they perished while the Carpathia and a number of other liners were rushing to their aid. No attempt was made to recover the bodies.

With the final realization that his splendid craft was doomed Captain Smith ordered the lifeboats lowered. His orders were obeyed with alacrity and the women and children were lowered.

The lifeboats were rocked and swayed by the wind and rolling of the big boat, and great difficulty was experienced in getting the women aboard without mishap.

There was a gathering in the grand salon on Sunday night attended by men and women of the first cabin in

## HAVE NOT HEARD FROM RELATIVES ON CARPATHIA

No word has been received from Mrs. John C. Hageboom or the others of her party since the Carpathia has been in communication with the wireless stations on land or boat. Press dispatches state that private messages from the survivors to their friends have been sent ashore. Mrs. Carl Went, of Newark, daughter of Mrs. Hageboom, has received no message of any kind from her relatives.

## EDITOR I. F. MACK OF SANDUSKY, O., DIES SUDDENLY

Sandusky, April 18.—Isaac Foster Mack, past commander of the Ohio G. A. R. and former candidate for national commander, died suddenly of apoplexy in Cleveland today. He was editor of the Sandusky Register for 40 years.

## BIG OIL WELL NEAR SHAWNEE STRUCK TODAY

Zanesville, April 18.—An oil well was shot near Shawnee which is making 275 barrels a day. This is the third gusher in this vicinity in the last week.

## FIRST VESSEL THROUGH ICE Duluth, April 18.—The steamer Easton, the first vessel to break through the ice fields of Duluth harbor, reached Grand Marais safely and as on her return trip today.

## PLANTED CANE IS SUBMERGED Baton Rouge, La., April 18.—The levee at Angola, on the east bank of the Mississippi, broke this morning and 2000 acres of planted cane will be wiped out.

## JEALOUS LOVER ATTEMPTS MURDER

Chicago, April 18.—While walking along the street together, two persons were shot in the back of the head today by Nicholas Stapias, 22. One of the victims was Florence Miller, a year younger than the assailant and her companion was Phil Tonnorilli. The latter and Stapias were rivals.

## HARMON WINS IN MICHIGAN

Detroit, Mich., April 18.—Governor Harmon of Ohio, will have substantial strength in the Michigan State convention. The Ohio governor has captured the Detroit city and county convention. The result is said to reflect a crushing defeat of Wilson's adherents. In Michigan one of the governor's leading supporters is Lawrence T. Hemans.

Harmon's managers here issued this statement: "In the selection of delegates to the Wayne county, Michigan, Democratic convention, which met in Detroit Tuesday, Governor Harmon carried 209 of the 211 districts, while Governor Wilson captured the remaining 11."

by William Cowley.

## MONSTER REVIVAL IS PLANNED FOR NEWARK IN THE NEAR FUTURE

Preliminary plans have been completed for a monster revival meeting to be held in Newark early this fall. Committee and workers have been appointed and the evangelist has been selected.

Rev. Milford H. Lyons of Chicago, well known in Ohio as a powerful evangelist, will conduct the meetings and according to the present plans a large tabernacle will be constructed in which the meetings will be held.

At a recent meeting of pastors and laymen it was decided to hold this series of meetings. Practically all of the protestant churches of the city will co-operate in making the progress of the work, practically all the services of the church will be suspended. This is the plan usually adopted in other cities where the meetings have been held.

Evangelist Lyons has a party of six co-workers to assist him in the evangelistic work. Just where the tabernacle will be located could not be learned. H. J. Holcomb, informed the Advocate that he was not ready to state where the structure will be located. The meetings will open on Sunday, Sept. 22, and will continue until Nov. 2, a period of six weeks, which includes seven Sundays.

## EFFECT OF BRYAN SPECIAL TRAIN WAR ON HARMON

Columbus, April 18.—Pertaining to the two days trip of Wm. J. Bryan, in a special train at somebody's expense, Chairman E. H. Moore makes the following statement of the effect of Bryan's assaults on Governor Harmon:

"Mr. Bryan, whom the Democrats of Ohio have three times honored with their support for president of the United States, in his recent 'invasion' of Ohio, is quoted as saying that 'Governor Harmon is not fit to hold an office from constable up.' Such talk is scarcely worthy of the ordinary ward heeler."

"It is a gross insult to the intelligence of Ohio's citizens, who have twice elected Mr. Harmon governor of this great commonwealth."

"Ohio prides herself upon the kind of men who, in the past, have filled the Governor's chair in this state, but in her long line of illustrious governors there is none of whom she is more justly proud than Governor Harmon."

"Colonel Bryan should remember that the average intelligence of the people of Ohio is equal to that of any state in the union. And, like the people of other states, while they make due allowance for the extravagance of political denunciation, they believe there are some properties which even the most 'malicious and vicious spellbinders' must observe."

"Denunciation, much less abuse, does not take the place of argument. It is no use to judge of Colonel Bryan's future attacks on Governor Harmon by the character of his utterances in his recent 'invasion' of Ohio. Harmon's friends may well extend to him a cordial invitation to pay a return engagement."

### SOLDIERS KILL GOLD MINERS.

Irkutsk, Siberia, April 18.—One hundred and seven gold miners were killed and 80 more were wounded in a fight with Russian soldiers at the Lena Gold Mining Company's works in this vicinity today.

Kent, Ohio, April 18.—The body of Miss Emma Getz, member of a prominent and wealthy family, who threw herself in the Cuyahoga river about two weeks ago, was found here by William Cowley.

## CONGRESS ACTED ON DISASTER

Thorough Probe of Titanic  
Wreck to be Made  
by Commission

BILLS ARE INTRODUCED

Which Seek to Prevent Repetition  
of Catastrophe—To Define  
Routes Across Ocean.

Washington, April 18.—The same task of investigating the wreck of the Titanic was begun today by the senate committee. The committee appointed a subcommittee of seven, headed by Senator William Alden Smith of Michigan, to take testimony. Chairman Smith will leave at once for New York, accompanied by the senate sergeant-at-arms, to procure witnesses to attend the immediate hearing. J. Bruce Ismay will be among the first asked to testify.

Among those who will be summoned to appear before the congressional investigating committee besides the president, will be the second, third, fourth and fifth officers of the Titanic, who are reported to have been saved and are on the Carpathia, and any other officers who may have been saved. Naval officials are of the opinion that one of the icebergs reported by the America through the Titanic was the cause of the Titanic wreck.

These officers were amazed by the report that the Titanic was going ahead at full speed in view of the known presence of danger. Mr. Alexander presented in the house today a joint resolution proposing an international marine conference to "consider a uniform law and regulations for the greater security of life and property on the merchant vessels at sea."

Many of the members of the house are openly opposed to any immediate activity toward an investigation of the disaster. Chairman Henry of the rules committee said today that he believed the senate and officials of the naval bureau could make proper inquiries without action by the house. Representative Sulzer of New York also opposed the investigation. He said: "It is only throwing dust in the people's eyes. It would only be a repetition of the folly of the investigation of the Slocumb accident a year ago. What we want is to make steamship owners criminally liable for wrecked vessels. Make it a felony and those who are criminally negligent send to jail. We want no more of these disasters."

Washington, April 18.—Congress has acted swiftly on the Titanic catastrophe.

Bills and resolutions, designed to prevent repetition of the awful disaster off the Newfoundland banks poured into both houses.

The senate has agreed to a resolution directing a thorough investigation by the commerce commission into the causes leading to the wreck with particular reference to the inadequacy of life boats. This resolution, the first introduced in the senate presented by Senator Smith of Michigan, who ranks next to the chairman of the commerce commission, was passed by unanimous consent in one hour and 20 minutes.

Senators Martine of New Jersey and Perkins of California, the latter chairman of the naval affairs committee, also introduced bills.

Senator Martine proposed that the president be advised with maritime nations to regulate the safety of ocean craft and their passengers and crew.

Senator Perkins' resolution provided for the equipment of steamers

## JUDGE NICHOLAS IS OPPOSED FOR SECOND TERM

Coshocton, April 18.—Common Pleas Judge Samuel H. Nicholas, yesterday met strenuous opposition in his effort to have set aside the resolution of the Democratic of this sub-district declaring for one term only for judges. The candidacy of Judge Charles B. Hunt was announced, and it is said both other counties of the district, Wayne and Holmes, will support Hunt. The district is overwhelmingly Democratic in nomination being equivalent to election. Nicholas has served six years.

## Why You Should Join a Woman's Club.

**I**F women's clubs did nothing but benefit their club members, they would be worth while. For the woman's club has brought back into many a woman's life the brightness and cheer and enthusiasm that had long since departed.

As one clever writer on the subject says, "To the home-making woman of moderate means the woman's club is a blessing. The club has shown her the value of cheerfulness in the home, and taken her back into the half forgotten dream-world of her girlhood,—the dream-world of romance and music and art,—and awakened into new life the half dormant mind that had been dwelling itself in the discontent of household troubles. Bright women who by reason of routine have become apathetic half invalids, fretful, nagging and complaining,—blossom out into healthy, cheerful women through the influence of the club-room and the contact with the brilliant minds of other women. In the smaller towns the woman's club is something else to look forward to besides the weekly prayer-meeting, the Monday wash, and the Saturday baking."

So that if the club did nothing but these things its existence would be justified.

But it does these and more. Listen to what some of the Women's Clubs of the country have done and are doing.

In Alabama, through the efforts of the women's clubs, a general interest is being aroused in the betterment of the conditions in the schools in rural districts.

In California, as the result of agitation on the part of club women, a censorship over theatres and moving picture shows in order that the general standard may be kept high, is being considered.

Nearly two hundred women of Denver have organized to keep the public appraised of the coming of good plays, and to ignore the poor ones. This is a practical step for better drama.

The Women's Clubs of Florida are working for a stringent child labor law.

The club women of Georgia are urging employers to co-operate to devise plans for making the Girls' Night Schools more effective.

A minimum living wage for women in industry is one of the movements the club women of Illinois are interested in.

Abolition of public drinking cups, extension of the work to stamp out tuberculosis, forestry and pure food laws,—these are some of the things the club women of Kentucky are working for.

In Maryland, the Compulsory School Attendance Bill and a ten-hour bill for working women, are enlisting the efforts of club women. Another work the club women of Maryland are thinking of taking up is the censorship of theatres and moving picture shows.

To bring the farm-woman and her children into closer touch with her sisters of the city, the club women of Minnesota are starting an energetic campaign to use rural school houses for club rooms and social centres.

Omaha club women are showing the sincerity of their interests in their sisters in industry, by urging the merchants to close their stores by nine o'clock on Saturday evenings.

A ten-hour work-day for wage-earning women is the work laid out for the clubs of New Jersey. Other club women of New Jersey are investigating market conditions, weights and measures, and trying co-operative buying, all with the idea of reducing the cost of living.

The club women of Cleveland are raising a scholarship fund for educating poor girls.

Better housing conditions and social work for the immigrant population of the State, are among the work the club women of Pennsylvania are undertaking.

Pittsburg club women are working to bring down the cost of living. Training women in the business of housekeeping, educating its members in the cost, quality and quantity of household commodities, compelling full weights and measures are among the means they are adopting to accomplish their aim.

And this is only a very small part of what the club women of the country are doing. It is an inspiring record, and the country will soon show the result of such earnest work. It is worth while to have a hand in such work. Every woman who can join a club should do so. She will be benefited and she will benefit others. And if she is in a section where there are no clubs it is not a difficult matter to start one. The club in the nearest large city will help.

## Daddy's Bedtime Story

Jack-in-the-Pulpit  
Wears a Simple  
Green Hat

The Fairy Queen Rewards Jack.

THE windows were away up. Jack and Evelyn had begged it when they started for bed.  
 "We want to sniff the nice smell of the little wild flowers before we go to sleep, and then maybe we will dream about them," they had said to daddy.  
 Daddy smiled. The woods were nearly a mile away. Unless some friendly little breeze ran in with a whiff of flower fragrance it seemed unlikely that the children would be able to smell the flowers.  
 "Where the woods are dark and moist," daddy began, "there once lived a little green plant, one of the first flowers that come to us in the springtime. It was not slender and graceful like the anemone, nor dressed in gayly dappled leaves like the adder's tongue, nor fragrant and lovely like the violet or the pansy. The little plant rose straight and gaunt from the dark earth, three triangular leaves on its head, and when the other little plants began to put on their spring bonnets the plant was still plain and green.  
 "I should feel ashamed to lift my head if I couldn't have a spring hat like every one else," the bloodroot murmured as the wind stirred his waxen petals. And the other flowers flaunted their gay colors happily in the sunshine.  
 "By and by came boys and girls with baskets, and many of the pretty flowers lost their heads, and those who were left did their best to hide their shyness when they heard human feet coming.  
 "The little plant by the brook had grown a green shell-like covering to shield the flower that was all he had to add to the beauty of springlike woods. And now a strange thing happened. The winged creatures of the woods came in swarms. They dived deep into the shell of the little plant to feed on the delicious stores hidden there, for though he wore no gorgeous finery to attract notice, the heart of the flower was sweet and full of honey, and the little wood creatures who feed on the plants knew this and passed by the more showy yet less satisfying blossoms.  
 "And one day the fairy queen came by. All the flowers stood straight and still to receive her.  
 "But she passed them by. She stopped beside the little green plant by the brook, and the bees and butterflies and wood flies buzzed their approval.  
 "'Little Jack-in-the-Pulpit,' said she, 'you have done well. It is not always by gay clothes that we may judge. You have been modest. You have been kind. You have fed the hungry when your neighbors thought only of gaudy finery. Little Jack-in-the-Pulpit, when autumn comes you shall wear a scarlet cap.' And so it is when the woods grow cold you will see Jack-in-the-Pulpit, a cardinal, wearing a crown of scarlet."

The Newark Reflector Works, however, will retain the same name.  
**SHAKE IT OFF.**  
**Rid Yourself of Unnecessary Burdens.**  
 A Newark Citizen Shows You How.  
 Don't bear unnecessary burdens. Burdens of a bad back are unnecessary.  
 Get rid of them.  
 Doan's Kidney Pills are for bad backs.  
 Lots of local endorsement to prove this.  
 J. W. Rees, 38 West Locust St., Newark, Ohio, says: "Doan's Kidney Pills helped me a lot and I am all ready to praise them. I had suffered from kidney trouble and backache for some time. The pain in my back was severe and the action of my kidneys was irregular. I used Doan's Kidney Pills, procured from A. E. Croton & Co. Drug Store and no medicine ever acted more quickly than they. My kidneys became normal and the pain left."  
 For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.  
 Remember the name—Doan's—and take no other. 20

## THE HUMAN PROCESSION

By O. Terrence.

CLARENCE DARROW, 55 TODAY, IS A DISCIPLE OF TOLSTOI.

Under indictment in Los Angeles on charges of bribery and corruption of jurors, with the trial that will be the crisis of his career set for the 14th of next month, Clarence S. Darrow is perhaps not very happy in this, his fifty-fifth birthday. Once the hero, the plumed knight, of organized labor, the lawyer-philosopher is now viewed with suspicion by many of his former friends. Declaring his innocence, Mr. Darrow has announced that he will fight to the last ditch. The distinguished labor attorney is a disciple of Tolstoi and the author of a book entitled "Resist Not Evil," but in the antithetic case investigation and the Moyer-Haywood-Pettibone case he showed himself a right bony resister, and probably he will be no less the fighter with his own liberty and reputation at stake. Against him, according to District Attorney Frederick of Los Angeles, will be pitted the damning evidence of the dictograph, as well as the testimony of those he is alleged to have sought to influence while engaged as chief counsel for the McNamara defense.

Kinsman, O., was the Darrow birthplace, and April 18, 1857, the date. He was educated in the public schools of the Buckeye State and in 1875 was admitted to the bar. While still a youngster he attained an enviable reputation in his profession, and was appointed general counsel for the Chicago and Northwestern Railroad company. Then he became interested in organized labor, delivering addresses and writing articles in defense of the cause. Ten years ago, when President Roosevelt appointed an arbitration commission to look into the anthracite coal mining situation, Darrow was chosen to present the side of the union miners. His successful defense of Moyer, Haywood and Pettibone, the leaders of the Western Federation of Miners who were charged with the murder of Idaho, added to Darrow's reputation.

One of the greatest influences in Darrow's life was the late Governor Altgeld, of Illinois. Before Darrow had won his spurs he became a protégé of Altgeld, and when the latter died the young lawyer delivered a eulogy of his friend and partner that is a classic of its kind, and scarcely inferior to Ingersoll's "Oration at His Burial."

Whether angel of light or devil of darkness, Darrow is possessed of charm and magnetism of personality

that cannot be denied. He usually wears shabby clothes of the ready-made variety, and he is far—very far—from being handsome. But talk—how he can talk, when once aroused! Buddha, Christ, Socrates, Plato and Confucius have had their influence in the formation of the Darrow philosophy, as set forth in his books, but his great master is Tolstoi. Holding to the ideal of non-resistance, as preached by the great Russian, Darrow yet admits that there are times when it is necessary to fight for survival. In his "Resist Not Evil" Darrow says:

"The doctrine of non-resistance to evil does not rest upon the words of Christ alone. Buddha, Confucius, Plato, Socrates, show the evil and destruction of war, of conquest, of violence and of hatred, and have taught the beneficence of peace, of forgiveness, of non-resistance to evil. But modern thought is not content to rest the conduct of life upon the theories of moralists. The rules of life that govern men and states today must be based upon the highest reason and judgment of man. \* \* \* That men should 'turn the other cheek,' should 'love their enemies,' should 'resist not evil,' has ever seemed fine to teach to children, to preach on Sundays, to round a period in a senseless oratorical flight; but it has been taken for granted that these sentiments cannot furnish the real foundation for strong characters or great states."

## WOMAN'S IDEAL LAXATIVE IS DELICIOUS "SYRUP OF FIGS"

Gently Cleanses Your Stomach, Liver and 30 Feet of Bowels Without Gripe or Nausea—Ends Headache, Biliousness, Gastritis and Constipation.

All women get bilious, headachy and constipated—simply because they don't exercise enough. They don't eat coarse food, or enough fruit and green vegetables. Those are nature's ways of keeping the liver and thirty feet of bowels active; but very few women employ them. The next best way is delightful, fruity Syrup of Figs.

Nearly all ills of women can be overcome with Syrup of Figs alone. There is no need to have sick headache, backache, dizziness, stomach sour and full of gases, bilious spells, sallowness, coated tongue, bad complexion, bad breath, nervousness and depression. The surest and safest remedy is one or two teaspoonfuls of delicious Syrup of Figs. Try this tonight—you'll feel splendid in the morning when the sour bile, clogged up waste and poisonous matter have been gently but thoroughly moved on and out of your system, without nausea, griping or weakness. Your head will be clear, complexion rosy, breath sweet, stomach regulated; no more constipation, gases, pains and aches. It is simply a matter of keeping your stomach, liver and bowels clean and regular. Then you will always be well—always look and feel your best.

But get the genuine—the old reliable. Ask your druggist for "Syrup of Figs and Elixir of Senna." Refuse, with contempt, the so-called Fig Syrups some times substituted to fool you. The true, genuine, bears the name California Fig Syrup Company; look for this on the label.

## D. HUNT GETS YEAR'S LEAVE FROM TRUSTEES

Granville, April 18.—At the annual spring meeting of the Board of Trustees of Denison University, held Tuesday and Wednesday, Dr. D. W. Hunt was granted a leave of absence for one year, and a Committee of Administration was appointed, consisting of G. M. Peters, of Cincinnati; E. J. Barney, of Dayton; and Julius G. Larson, of Toledo. This committee is to make the detailed arrangements for the carrying on of Dr. Hunt's work for the year and to report definitely at the June meeting. Dr. Hunt plans to remain here until summer and then take two or three months' vacation in the northern woods. No definite plans beyond obtaining a complete rest have been made for next year by Dr. Hunt.

Dr. Carney has been given a leave of absence for next year to complete the preparation of a book upon which he is engaged. While he is at work upon this he will also be doing some special work at Ann Arbor. The

work of his department here will be carried on according to plans which Dr. Carney himself devises.

Mr. Wiley was granted a leave of absence for next year to pursue graduate work in mathematics. Mr. Wiley has been given the title of Assistant Professor of Mathematics. The work of the Department of Mathematics will be carried on by Dr. Biesfeld and Miss Peckham.

Inasmuch as Mr. Bridges finds it important, for reasons of health, to seek a different climate, Instructor Cory will take the Academy Latin next year.

For the Instructorship of English in the Academy, formerly held by Mr. Cory, the Board chose Harry L. Pine, now teaching in Cambridge High School. Mr. Pine is a Denison man, of the class of '09, and will be of great assistance to the Academy athletics.

## FIRST THINGS

The city of Gary, Ind., one of the wonders of America, was founded six years ago today by the "steel trust," and now has a population of about 25,000, with prospects of attaining the hundred thousand mark within a few years. The site of Gary, named after the head of the United States Steel Corporation, was won practically nothing until the great trust selected it as the spot on which to build big steel mills. It was a desert waste, land made of the sands washed up by Lake Michigan. Half a dozen years ago today a real estate agent of the steel corporation opened an office, and a dozen workmen began digging and excavating, which practically a great market and an excellent distributing point for Gary's principal product, and steel can be produced more cheaply there than in Pittsburg. This economic condition explains Gary's magic growth in six years from nothing to a bustling city with paved streets, electric railways, teeming commercial buildings and numerous residences, to say nothing of the big mills and factories and the busy waterfront that are its excuses for being.

## AMUSEMENTS

**Dante's Inferno Pictures**  
The Auditorium show is filled last night for each presentation of Dante's Inferno pictures, in spite of the extremely bad weather, and those who braved the rain were amply rewarded by seeing the most wonderful motion picture that the world has seen. The enormous expense which the Milano Film Co. must have gone to in order to produce this marvelous picture is certainly beyond comprehension, and the picture must be seen to be appreciated. It is one of those awe-inspiring entertainments in motion photography that is impossible to describe, but which every man and woman in this city ought to see. The cruel punishment inflicted on the poor souls beggars description, the scenes are marvelous and the acting is superb. Dante's Inferno pictures will be seen again tonight, running continuously from 6:45 until 10:30 and are well worth seeing. The usual photo-plays will be shown again tomorrow afternoon and evening.

**The Orpheum**  
Another good show is promised the patrons of the popular Arcade theatre the last three days of this week. One of the special features booked is Charles Olcott, vaudeville's funniest comedian. He is a clever fellow with a line of work that secures him the highest of praise everywhere.

The Urmholtz Brothers will be another pleasing specialty in a high class musical act. They play both brass and stringed instruments, and their many different selections always win them hearty applause. Siddons and Barrio in their latest comedy skit, entitled "The Female Doctor," are funny from start to finish. There is not a slow minute in the entire act, but every one is filled with some side splitting laugh. Floretta, the girl gymnast is sure to please with her classy little athletic treat.

The Orpheumscope has a new picture. Remember the five reels of latest licensed motion pictures every Sunday for five cents.

London has 6,731 music teachers, more than the thousand professional solo violinists and 1,700 professional vocalists, of whom 633 are sopranos.

## VIEWS OF A TAFT OPTIMIST

Sees Some Good in the Illinois Primary Result.

### EFFECT ON CHICAGO PLATFORM

Best That the Conservatives Should Not Be in Full Control—Owen's, Efforts For a National Highway From the Canadian Border South of Winnipeg to the Gulf of Mexico.

By ARTHUR W. DUNN.

Washington, April 18.—[Special.]—There are optimists in the Taft administration. One of them is a cabinet officer, who said that the result in Illinois was not an unmixed evil. He explained this way:

President Taft desires a progressive platform. He wants such a platform as will appeal to the people, not so radical as Roosevelt would have, but one which goes much further than men in control of the Republican party machinery would accept. If the old guard had absolute sway at the Chicago convention it would mean a conservative platform, one which might be called reactionary. So upon the whole the result in Illinois will tend toward a progressive platform, which the president desires.

**The Voice of a Novice.**  
That sort of "dope" did not come from any of the old wheel politicians, but one who must be a novice. No one expects the Chicago convention to adopt any kind of platform that is not approved by Mr. Taft. In fact, the platform will be carefully drafted and read and reread at the White House before it goes to Chicago—that is, assuming that Mr. Taft will control the convention and be nominated. The convention will make the platform and candidate harmonize.

"Oh, Clark!" Said Harvey.  
Colonel George Harvey, who started out so earnestly in behalf of Governor Woodrow Wilson and was checked by the New Jersey governor and who figured prominently in the episode between Wilson and Colonel Watterson, was in Washington not long ago, which brought only a smile to the colonel's face. Then he was asked, "Who seems to be the prospective Democratic nominee?"

"Oh, Clark!" replied Colonel Harvey.

**Gulf Route Again.**  
Senator Owen of Oklahoma might be accused of trying to encourage immigration from the United States to Canada, but in reality he is simply reviving a project long in the minds of men. He has introduced a bill providing that the government shall construct a national highway from a point on the Canadian border south of Winnipeg through the states of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma to Galveston, Tex. It is hardly to be expected that immigrants going toward Canada would travel in the old fashioned covered wagons on a highway. Most of them go by rail. Such a highway would no doubt be welcomed by the good roads people of the states west of the Missouri river.

**Most Extravagant Government.**  
"I lay down the proposition that this is the most extravagant government that the white race is carrying on anywhere on the surface of the earth with least excuse for such extravagant expenditure of money." Such was the statement of Senator John Sharp Williams when he was supporting the house proposition for reducing the army by cutting off five regiments of cavalry. He thought there should be a cut in military expenditures, but he recognized the real source of increased expenditures in the desire of members of congress to get things for their districts and their people for the purpose of making themselves strong at home.

**Martine Harked Back.**  
When the senate made it such an emphatic part of its policy not to reduce the army nor to stop the building of the navy, Senator Martine of New Jersey harked back to the arbitration treaties. He said his heart swelled with joy when it was shown in debate that those treaties were to abolish all wars, but he now found that "it was all an ill-desired dream." He pointed out that notwithstanding the adoption of the arbitration treaties all foreign nations were going ahead with a large program of naval building than ever before. Martine said that the treaties were largely humbug.

**Can Attack Mileage.**  
Soon there will be an appropriation bill before the house carrying the mileage provision which allows senators and members 20 cents a mile for traveling expenses. It can be attacked and the interesting question will be to see how far members of the house who have been so anxious for economy will go in the direction of cutting down the mileage pay.

**Regret For Cullom.**  
There is real sincere regret in Washington that Senator Cullom is not to be permitted to live out his days as a senator. "If it was an eastern or southern state there would be no question of keeping him there as long as he lived just for the sentiment," was the remark of one who has known Cullom when he was in a real vigorous political life.

### IMPROVEMENT OF NEWARK

(BY ALVA L. GLEASON, EIGHTH GRADE, WOODSIDE SCHOOL)

"Be it ever so humble, there's no place like home."

In the year of eighteen hundred and two many settlers were coming into Ohio to make their future homes. They kept on traveling through the state until they came to a beautiful spot of ground in about the center of the state. Some of them said they were going no farther, but build the log cabins and live here. "There is no use to roam; make Newark your home."

After they had built their cabins they went out to explore the land surrounding them. They saw that they were living in a beautiful valley. There were two creeks close to their homes. While out exploring they found many mounds. Their little settlement was close to a pond.

In the year of eighteen hundred and three Ohio was admitted into the Union. As the years went flying by the little town grew larger. The people elected their first mayor.

The mayor saw that their village was in a good location. The people knew of a city in New Jersey called Newark, so they said that their city should be called by the same name. The people set to work cutting down the hills and building more log cabins. Each citizen did his share of work. So civic improvement began in Newark in the year eighteen hundred and two.

After many years had passed the log cabins were taken away and beautiful houses took their places. They not only built houses but factories and shops. Soon more people came to live in Newark. It did not take them long as it did the early settlers to come to the city, because it is a railroad center now.

Now that we are some of the people that came to live in Newark we should do our share of work. We should pick up all the waste paper we see, and better than that not throw any down. The first thing in civic improvement is to be clean yourself. Then to have your own home clean. Have your back yard as clean as your front lawn.

There are many reasons why the people of Newark should boost for civic improvement. First, that old rags thrown in deserted closets and other places might catch on fire. The first thing we might save by civic improvement is fire. Second, rubbish, trash and other disagreeable things

cause diseases. Third, I am sure that all the citizens of Newark want to live in a clean and beautiful place. Then we want civic improvement.

As boys and girls going to school some of us think we can not do anything. If you think that way you had better change your mind. There are many things we can do. We can pick up paper that is scattered around and not throw any down. We can stay off other people's lawns. If all of us would walk on the edge of lawns we would have no use for side walks. Do not spit on the sidewalks, on the floors of cars, or in any public places. There is danger of it causing disease. Mr. Smoker do not throw the stub of your success killer any place where it will cause a fire. Now, boys and girls do your share and we will get after the men and women.

The working man says he can not do anything to improve our city. Mr. Working Man, if you have a home you can do a part of your share by putting in a sidewalk. If you want your home to look beautiful plant some trees.

"He that planteth a tree is a servant of God. He provideth a kindness for many generations, and faces that he has not seen shall bless him."

Mrs. Housewife, you also have a share of work to do to improve Newark. Keep the outside of your home as clean as the inside. Plant flowers in your yard.

Citizens of Newark, by working together we can do a great deal to improve our city. We can try and see if we can not get waste paper boxes on the corners of the street. If we keep our yards and homes clean the non-citizens will profit by the example and do the same. We all know what Newark was in the past and what it is now, the present. Now let us join hands and make future Newark the best city in Ohio; yes in the Union.

"I'll help wherever I can sir, My duty I'll perform. In thought and deed be true, sir, To the place where I was born."

**ATE STRYCHNINE TABLETS.**  
Yellow Springs, Ohio, April 18.—A small child of Edward Easterline of this place, found some tablets on a mantel, ate them and died within one hour. The tablets were supposed to contain strychnine.

### DENISON DANDY DARKIES GAVE FINE MINSTREL

Granville Town Hall Packed to Capacity—All Participants Did Nicely

The sixteenth annual production of the Denison Dandy Darkies was witnessed by a capacity house in the town hall at Granville Wednesday night. As in former years the show erred in that it was of too great length, but the college audience seemed to enjoy every moment of the piece, and to expect a play of considerable duration.

The opening number was a curtain-raiser entitled "Down Raccoon Creek," in which two premier end men, Babb and Swegman, were shown on their way to the show. With a little careful rehearsing this could have been made a very clever introduction, but owing to slight hitches it seemed to lose its force and to become rather aimless.

The first part proper showed the chorus in evening clothes and the comedians resplendent in red satin. The opening chorus, which was made up of a number of popular airs, was exceedingly well done. The singers were rather timid on the attack, but sang well after they had caught the swing of the music. The most pleasing numbers of the first part were, "For Killarney and You," by Mr. F. E. Wolf; "The Longshoreman," by Mr. E. R. Babb; "My Honey Man," by Mr. Ralph Morrow; "The Ragtime Violin," by Mr. Thompson, and "That Possum Rag," by Mr. E. L. Babb. Several of the boys seemed somewhat inclined to sing their songs "sans words" but the audience seemed to take especial delight when a singer forgot his words, and this only added to the general good humor which characterizes these college productions. Warren Miller essayed the difficult part of interlocutor in the opening and made a pleasing appearance. Mr. Miller might have done much to keep the piece from dragging had he made the numbers follow each other in swift succession, but his manner was rather too reserved and deliberate to accomplish this. The first part ended with a finale introducing the songs of a number of Ohio colleges, closing with the beautiful "To Denison" in which the audience, standing, joined.

Part three was a baseball sketch written by Mr. E. L. Babb which abounded in local color and local humor. The members of the cast were

Messrs. Babb, Warner, Chaille, E. T. Wolf, Wingrave, H. B. Carney, and Hascall. In its entirety the production showed some careful preparation and a surprising amount of minstrel talent. With a little more rehearsing under a competent director, and a little more snap to the comedy work, the boys would rival professionals.

### NEWARK PASTORS ON THE PROGRAM

Pastors of both the Newark Congregational churches are on the program for the 105th semi-annual meeting of the Central Ohio Congregational churches announced for next Monday and Tuesday at Marysville, O. The general theme for the meeting will be "Seeking the Kingdom."

Monday evening the program opens with a sermon, "The Nature of the Kingdom," by Rev. W. A. Warren of Columbus. The communion at this service will be administered by Rev. J. Morrison Thomas of Newark, assisted by Rev. F. L. Bowers of Columbus. Addresses by Rev. Ira L. Houston of Mt. Vernon and Thomas A. Vaner of Newark will feature the Tuesday meetings. Rev. Mr. Thomas of this city will submit reports on Sunday school work.

### SKIN CRACKS OPEN

PAINFUL RESULTS OF ECZEMA MAY SOON BE OVERCOME.

Try This Remedy at Our Risk

In chronic eczema the skin often becomes thickened and cracks open, greatly increasing the painful symptoms and making cure more difficult.

We now have a new remedy, Saxon Salve, of such remarkable healing power in all forms of eczema and other crusts and scaly skin eruptions of every kind that we guarantee it to give perfect satisfaction. It penetrates the skin so thoroughly with its germ destroying power, that you can see great improvement even in the first few days.

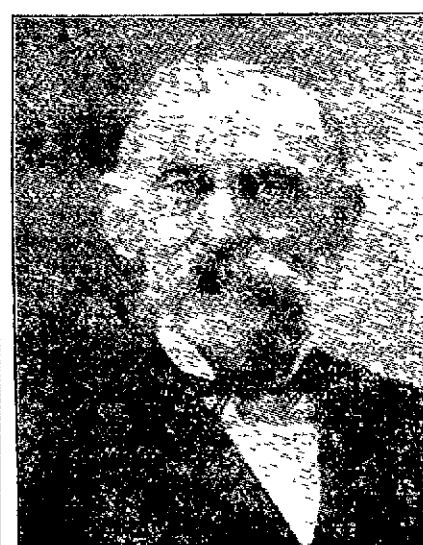

It not only stops the terrible itching at once, but begins healing the cracked and tortured skin at the same time. No matter whether the sufferer is a baby or a grown person, the results are the same and the disfiguring eruption soon disappears. Try Saxon Salve—if you are not satisfied, we refund your money. Frank D. Hall, druggist, 10 N. Side Square, Newark, Ohio.

### SIX YEARS AGO TODAY 'FRISCO WAS DESTROYED—NOW SEE WHAT!

Six years ago today, according to the newspapers of that time, San Francisco was destroyed, wiped off the map, annihilated, demolished, devastated, consumed and in hopeless ruins. As H. Toga would say, "And now see what?" A bigger and more substantial city has been erected, the census figures of 1910 show a gain in population of 21.6 per cent over 1900, a great international exposition that will outshine all preceding world's fairs is being planned, and a greater San Francisco, to include all the neighboring cities in one great metropolis, is a possibility of the near future. If the latter plan is carried out, San Francisco will have a population of about 750,000, and will become the fourth largest city of the United States. It now stands eleventh in the list, being surpassed by New York, Chicago, Philadelphia, St. Louis, Boston, Cleveland, Baltimore, Pittsburgh, Detroit and Buffalo. The amalgamation project has made considerable headway of late, although a majority of Oakland people are opposed to being swallowed by their big neighbor. The boundaries of the proposed Greater San Francisco include both sides of the bay and take in portions of Alameda, Marin and San Mateo counties, in addition to the city and county of San Francisco. Over 400 square miles are included in this territory, but a part of San Francisco Bay is included in the areas.

The rise of San Francisco since the terrible earthquake and fire six years ago today is without parallel in history. Chicagoans thought they accomplished wonders in the period following the fire of 1871—and they did—but the Windy City was slow in recovering from the blow dealt it by the "fire demon" when compared with the Golden Gate City. In many sections of San Francisco, including Market street, the main business thoroughfares, property values have advanced beyond what they were before the fire. The fire has given San Francisco one great advantage over other cities of the country in that practically everything in it is new, and the latest materials and engineering inventions have been used in the construction of the buildings.

### METHODS USED TO KILL RATS

Discourage the killing of the natural enemies of rats, such as owls and hawks, for if allowed to live these birds in a year's time destroy rats that would do ten times as much damage to game, poultry and vegetable products as do the birds of prey.

By the use of cement and concrete, build dairy-houses, dwellings, barns, stables, poultry-houses, silos, bridges, ice-houses, and sidewalks that are rat-proof.

Though the use of slaked lime, whitewash, gas-tar, red pepper, etc., may drive rats away for a short time, to get permanent results they must be destroyed.

By keeping garbage cans covered and food out of the reach of rats and mice for several nights, they become bolder from starvation. Then a trap or poison should be put out. This generally gets them all.

### BURNS, CUTS, BRUISES

San Cura Ointment Stops Pain at Once, Draws Out all Poisons and Heals Promptly.

In all the world there is no ointment, no liniment, no remedy for burns, cuts and bruises that can compare with the antiseptic ointment called San Cura.

Every person ought to have a jar on hand: it is the first and best aid to the injured in case of accident, and is the ideal remedy for so many other distressing and painful ailments besides.

For example: It is guaranteed by Erman & Son to cure itching, bleeding and protruding piles, eczema, tetter, ulcers, salt rheum, boils, carbuncles and pimples, or money back.

In case of old running sores, no matter how long standing, a few poultices of San Cura Ointment will draw out every particle of poison, and leave it in such a thoroughly antiseptic condition that the sore will heal, never to break open again.

We advise every reader to get a jar of San Cura Ointment today and keep it ready for an accident or emergency that may happen. 25 cents and 50 cents at Erman & Son, on the money back plan.

### SOAP FOR THE SCALP.

San Cura Soap is delightful for shampooing, because it is full of antiseptic properties that banish the germs of dandruff and other impurities from the scalp. It cures pimples and blackheads too. 25 cents a cake at Erman & Son.

Mail orders for San Cura Ointment and Soap filled by Thompson Medical Co., Titusville, Pa.

### ENGINEER IN THE B. AND O. FOR 35 YEARS TAKEN AWAY

Edward B. Ream, aged 65 years, one of the oldest employes in years of service of the B. & O. Railroad, died at his home on Stillwell street at 9:20 o'clock Tuesday evening after a short illness from infirmities. The deceased had spent nearly a half century in the service of the railroad and was one of the first engineers of the country to be assigned to a coal burning engine. He was train boy on the B. & O. during the civil war and had many thrilling adventures during the war of the rebellion. He held an unusual record as an engineer, for during his 35 years as an engineer, he never had an accident. He retired from service about six months ago. Mr. Ream is survived by his widow and one brother and three sisters.

### Almost a Miracle.

One of the most startling changes ever seen in any man, according to W. B. Holselaw, Clarendon, Tex., was effected years ago in his brother. "He had such a dreadful cough," he writes, "that all our family thought he was going into consumption, but he began to use Dr. King's New Discovery and was completely cured by ten bottles. Now he is sound and well and weighs 218 pounds. For many years our family has used this wonderful remedy for coughs and colds with excellent results." It's quick, safe, reliable and guaranteed. Price 50 cents and \$1.00. Trial bottle free at F. D. Hall's.

## The Ware That Wears Guaranteed 15 Years

It doesn't pay to buy cheapware that soon peels, cracks, leaks, tarnishes, rusts or wears out. Even at a lower cost such ware is the most expensive because it is dangerous to health and unreliable in service—doesn't last.

**"1892" Pure Spun Aluminum Ware** is guaranteed for 15 years. There is practically no wear out to it and scientific investigation proves it the most sanitary cooking ware made. Particles can't chip off and cause chronic troubles nor spoil the food. Germs do not breed on its smooth surface and odors can not be absorbed by it.

You'll have better food and save trouble, time and fuel by using only "1892" Pure Spun Aluminum Ware. Look for trade mark on every piece.

## THE GERM WHICH PRODUCES DANDRUFF

Finally Causes Baldness—Kill the Germ and Save Your Hair—Newbro's Herpicide Will Do It

Did you ever try to discover a reason for the falling of a valuable plant? You perhaps found that life was destroyed by some insect or parasite working about the roots and sapping away the elements which go to support plant life.

The dandruff germ exercises the same destructive influence upon the life of the hair. It forces its way down the follicle around the hair bulb and thus prevents the hair from getting proper nourishment. The hair dries and drops out.

Newbro's Herpicide prevents this by killing the germ. It also frees the scalp from the accumulations of dirt and scarf skin. With the removal of these obstacles to a clean, healthy scalp, the hair will grow naturally and luxuriantly.

Herpicide is known as the Original Dandruff Germ Destroyer.

One dollar size bottles are sold and guaranteed by all druggists.

Applications may be obtained at the better barber shops and hair dressing parlors. Send 10c in postage or silver to The Herpicide Co., Dept. R., Detroit, Mich., for a nice sample of Herpicide and a booklet telling all about the hair. W. A. Erman & Son, Special Agents.

bond of \$100, and in default of this was committed to the county jail.

### Transcripts Filed.

In the matter of Ohio vs. Celia Miller, a transcript from the criminal docket of the mayor's court has been filed. On affidavit of Elizabeth Feaster, the defendant is charged with having used indecent, obscene and profane language in the presence and hearing of women. The defendant pleaded not guilty and was bound over to common pleas court with a bond of \$25, which was furnished.

In the matter of Ohio vs. Jennie Reynolds, a transcript from the criminal docket of Mayor Swartz's court has been filed. The affidavit of Antonio Trubiano charges her with having stolen \$181.53. The defendant entered a plea of guilty to the charge and was bound over with a bond of \$200. In default of bond the defendant was ordered committed to the county jail to await trial.

The transcript from the criminal docket of the mayor in which Trubiano charged Mrs. Reynolds with the same offense is filed. She was bound over under a bond of \$500, in default of which she was ordered committed to the county jail.

A transcript from the criminal docket of Mayor Swartz's court has been filed in the case of Ohio vs. Paul Miller. In the affidavit of Patrick Giblin Miller is charged with the malicious destruction of property belonging to the Heisey Glass Co. It is charged that Miller destroyed glass of the value of \$500 by throwing clay into a glass furnace pot. On a plea of guilty Miller was bound over to common pleas court under a bond of \$500, in default of which he was ordered committed to the county jail.

### Divorce Granted.

Judge Hunter of the probate court heard the divorce case of Alfred C. Betts vs. Viola B. Betts. Grounds for the action are gross neglect of duty and desertion. The case of plaintiff was heard and a number of witnesses examined. At the conclusion of the testimony the court granted the decree asked. Attorney J. W. Horn represented the plaintiff.

"Mary! as sure as you are alive you will never catch a fellow if you don't do something to make your hair grow. Those scanty locks of yours are disgraceful!"

"Do you know, my hair was almost as thin as yours; I had so little I thought I never could leave off wearing rats and puffs until I heard of Mrs. Mason's Old English Shampoo Cream."

"It is made from tonic cleansing herbs and different from anything else in the world. It frees the scalp from dandruff and all irritation and it does make the hair grow."

"Now, Mary, promise me that you will go to Frank D. Hall today and get a tube of this shampoo cream. It is only 25 cents a tube, enough for three or four shampoos."

Buy the Knabe Bros. Piano. It will be a life time purchase. 1704

### LESSON IN FIGURES.

Do you know that the Newark postoffice issued 29,672 domestic money orders in 1911 representing a total of \$320,882.95, that the total receipts at the money order window were \$371,839.66, while only 15,302 domestic money orders were paid at the local office amounting to \$130,622.15? Including domestic and foreign orders the receipts were \$371,839.66 while the money paid out by the Newark postoffice to Newark people amounted to \$132,604.16. This means that \$239,235.50 more money was sent out of town through the postoffice than was received by Newark people through the postoffice. It illustrates the fact that many people need to be educated to patronize home stores and home industries rather than the mail order houses.

If the \$239,000 had been left in Newark and kept in circulation here every man, woman and child here would feel the benefit of it.

A dollar spent in Newark says "I'll be Met Again." One sent away through the money order department or otherwise sighs "Farewell Forever." Think it over. Buy in Newark and whenever possible purchase Newark made goods.

For buying a first class piano at greatly reduced prices is offered you at RAWLINGS' MUSIC STORE, No. 4 North Park Place. Why? Because the contractors are going to take out the old front and replace it with one of an up-to-date style, and in order to make room for this work I must offer some good bargains so we can have the space for the workmen to do the work. We have on our floor such well known makes as the Knabe Bros., Smith & Nixon, Rawlings and a number of other well known makes which you can purchase at bargains and on easy terms, if desired.

When our store is completed, I will have the finest up-to-date music store in Central Ohio. This house has a reputation which all agents and commission houses envy. We buy for cash and sell on easy terms to good reliable people. Remember what the Board of Trade says, deal at home and help build up your own town; but if you continue to buy your pianos from people who are here today and gone tomorrow, what can you expect?
